PROFESSIONAL SUMMARY

Results-driven Machine Learning & AI Engineer with 2 years of hands-on experience building data-driven models and intelligent automation systems. Proficient across the full ML lifecycle — from data wrangling and exploratory analysis with Pandas and NumPy, to model development and deployment using Scikit-learn, PyTorch, and TensorFlow. Skilled in computer vision with OpenCV, API development with FastAPI, and designing autonomous Agentic AI workflows. Combines strong analytical foundations with practical software engineering to deliver scalable, production-ready AI solutions.

CORE TECHNICAL SKILLS

Data Analysis & Visualization

PandasNumPyMatplotlibSeaborn

Machine Learning & Deep Learning

Scikit-learnPyTorchTensorFlow

Computer Vision & Deployment

PROFESSIONAL EXPERIENCE

Academic In-Charge & Computer Science / AI InstructorMar 2025 - 2026

KIPS College, Jhang, Pakistan

- Delivered applied computer science and programming instruction, incorporating Python-based data analysis and introductory machine learning concepts into the curriculum.
- Managed the institutional ERP framework, applying data tracking and reporting logic across student records, attendance, and grading systems.
- Oversaw technical operations of advanced computer laboratories, supporting hands-on AI and programming lab work.

Business & Data Insights Analyst2024 - 2026

Criterion Capital Construction (Remote, UK-Based)

- Built dynamic Power BI dashboards and Python-driven data pipelines to surface actionable operational intelligence for senior executives.
- Analyzed complex construction datasets using statistical and data-analysis techniques to identify bottlenecks and forecast operational variables.
- Applied data cleaning and feature engineering practices (Pandas, NumPy) to improve reporting accuracy and cross-team project visibility.

WordPress Developer & SEO Executive2023 - 2024

IV Websites & Software, Jhang, Pakistan

- Developed and customized CMS-driven websites using HTML5, CSS3, and JavaScript, later applying this front-end foundation to building interactive ML model demos and dashboards.
- Executed data-driven SEO and content strategies, applying analytical thinking to keyword and performance metrics.

Operations Officer & Academic Coordinator2022 - 2023

Ecom International, Jhang, Pakistan

- Directed administrative and operational workflows, applying process optimization and analytical problem-solving to improve daily efficiency.
- Led cross-functional teams and coordinated data-informed operational planning.

Operations Executive & Admission Officer2020 - 2021

Enablers Pakistan (E-Commerce & IT Institute), Jhang, Pakistan

- Managed recruitment pipelines and admissions consulting, gaining early exposure to IT systems and operational data handling.
- Served as primary IT operations consultant across the local campus infrastructure.

EDUCATION

Bachelor of Computer Science (BSCS)Completed: 2024

Government College University Faisalabad (GCUF), Pakistan
