MUHAMMAD FAIZAN FAROOQ

Machine Learning & AI Engineer

0315-6508646 / 0304-0008646 • faizanprogrammer12@gmail.com • Jhang Sadar, Pakistan
github.com/faizanjutt473 • linkedin.com/in/muhammad-faizan-farooq-8bab35372

PROFESSIONAL SUMMARY

Machine Learning & AI Engineer with 2 years of hands-on experience designing, training and deploying machine learning and deep learning models. Proficient across the full ML lifecycle — from data wrangling and exploratory analysis with Pandas and NumPy, to model development with Scikit-learn, PyTorch and TensorFlow, and deployment through FastAPI, Flask and Django. Experienced in building LLM-powered and Retrieval-Augmented Generation (RAG) applications, Agentic AI workflows and Generative AI solutions, alongside computer vision with OpenCV. Currently working at Varolline AI, Islamabad, delivering scalable, production-ready AI solutions.

CORE TECHNICAL SKILLS

Data Analysis & Visualization	Pandas, NumPy, Matplotlib, Seaborn
Machine Learning & Deep Learning	Scikit-learn, PyTorch, TensorFlow
Generative AI & LLMs	LLMs, RAG (Retrieval-Augmented Generation), Agentic AI, Prompt Engineering
Computer Vision & Deployment	OpenCV, FastAPI, Flask, Django
Supporting Tools	Power BI, Python, ERP Systems, Advanced Excel

PROFESSIONAL EXPERIENCE

Machine Learning & AI Engineer
Oct 2024 - Aug 2026

Sparking Asia (Software Company), Rawalpindi, Pakistan

- Developed and trained machine learning and deep learning models using Scikit-learn, PyTorch and TensorFlow for real-world business problems.
- Performed data cleaning, exploratory analysis and feature engineering with Pandas and NumPy to prepare datasets and improve model performance.
- Built LLM-powered and Retrieval-Augmented Generation (RAG) applications and Agentic AI workflows.
- Developed computer vision solutions with OpenCV and served models through FastAPI, Flask and Django back ends.

AI Engineer
2026 - Present

Varolline AI Company, Islamabad, Pakistan (Currently working)

- Building AI solutions with the engineering team, including text classification models and a FastAPI model-inference and embeddings API.
- Developing a Retrieval-Augmented Generation (RAG) chatbot pipeline using LangChain/LlamaIndex with FAISS and ChromaDB vector stores.

EDUCATION

Bachelor of Computer Science (BSCS)
Completed: 2024

Government College University Faisalabad (GCUF), Pakistan
